

ENERGY AND PIPELINE CONSULTANTS

mc² oilfield services is committed to providing a comprehensive array of consultants with extensive knowledge and experience in the oil & gas industry. We specialize in helping clients understand, formulate and implement strategies around the very rapid changes in the energy industry.

Our services include:

- Certified Project Managers
- Project Leaders
- Trainers
- Safety Leaders (Certified)
- Welding Inspectors (CWI & CPWI)
- Pipeline Inspectors and Leadership
- Site Development
- Operations Personnel

Our Consultants are some of the best and most experienced in their respective fields. mc² initiates and maintains a strict level of professionalism and continuing education. Our ability to react quickly to your needs and to tailor our agreements to our specific clients is what sets us apart.
