

## NON-HAZARDOUS WASTE HAULING – DOT DRUMS

mc<sup>2</sup> oilfield services provide non-hazardous waste drum transportation and disposal services with you, the customer, in mind. We offer no obligation quotes and work with customers to establish a service plan that meets your needs. We are authorized by the Railroad Commission of Texas Oil & Gas Division to manage your waste stream from beginning to end (P-5 Operator Permit #537157 & Waste Haulers Permit WH #6566). mc<sup>2</sup> is approved by US Ecology to dispose of waste material in Robstown Texas conveniently located near the Eagle Ford Shale Region.

Our services include the following:

- Prepare Waste Profile Documentation
- Obtain Waste Stream Number
- Prepare Waste Manifest Documentation
- Provide New 55 gallon Waste Drums
- Pickup Full Waste Drums at Locations, Transport & Dispose at US Ecology
